

Dear Employer,

The bachelor's degree program of Hacettepe University Department of Electrical and Electronics Engineering is accredited by ABET Engineering Accreditation Commission. Please fill out the following survey, which will help us evaluate the performance of our students in multidisciplinary teams in accordance with ABET criteria. Please return this form the intern in a sealed envelope after completing.

We appreciate your time and help in this evaluation.

Prof. Dr. Atila Yilmaz

Professor, Department Chair

Electrical and Electronics Engineering Department, Hacettepe University

**To be filled by the student:**

Name, surname: \_\_\_\_\_

Student number: \_\_\_\_\_

Company at which student was an intern: \_\_\_\_\_

Internship start and end dates (e.g. 01.06.2022-01.07.2022): \_\_\_\_\_

**To be filled by the supervisor:**

During the last 3 years, we have employed \_\_\_\_\_ (please specify number) student(s) from Hacettepe University, Dept. of Electrical and Electronics Engineering as intern(s). \_\_\_\_\_ (please specify number) of them worked in multidisciplinary<sup>1</sup> teams.

	Yes	No
Performed in a multidisciplinary team.	<input type="checkbox"/>	<input type="checkbox"/>

If yes, the subject of multidisciplinary work:

	Above Satisfactory	Satisfactory	Not Satisfactory
Understands his/her and other team members' roles in a team.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Completes his/her part in the team by communicating with other team members.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Writes reports and prepares presentations when necessary.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Name, surname: \_\_\_\_\_

Position: \_\_\_\_\_

Signature: \_\_\_\_\_

<sup>1</sup> In addition to the work conducted jointly with engineering and science fields outside the area of Electrical and Electronics Engineering, the work that involves multiple branches of Electrical and Electronics Engineering such as Electronics, Electromagnetics, Microwave Techniques, Electrical Power Plants, Electric Engines, Integrated Circuits, Power Electronics, VLSI circuits, Digital Design, Optics and Photonics, Nanotechnology, Control and Optimization, Communications Systems, Signal and Image Processing is also regarded as multidisciplinary work.
